Assessment Feedback for Students
Kearny High School of International Business, California

Topic: Helping Students Navigate the Path to College

Practice: Assess and Intervene

Staff at Kearny High School of International Business make the assessment process transparent to students, discussing results and encouraging improvement both for themselves and for their community. Staff use these three documents to give students feedback on performance at the individual, classroom, and school level. In addition to providing written feedback, teachers may also plan rallies, offer incentives, or engage other methods to encourage students to work harder and improve their scores.

Your STAR Test Results

Getting good test results can change the overall opinion of how the public thinks of a school, and it will matter when you apply for a new job or college.
Mr. Hickey will use these results to determine who gets a locker!

Here's how you did this past spring ('09) and the spring before ('08):
