New School Intensive Scope and Sequence

Young Scholars' Academy for Discovery and Exploration, New York

Topic: Turning Around Chronically Low-Performing Schools

Practice: Quick Wins

The New School Intensive, which is a collaboration between the NYC Leadership Academy and the NYC Department of Education, is a training series that provides principals of new and restructured schools with an increased understanding of the step-by-step process of preparing their school to open.

This Scope & Sequence lays out the topics for each training session—beginning with communicating the new school's vision to staff and the community and continuing through hiring staff, building a culture of learning, and aligning the mission with operations—and the timeline of implementation steps principals are expected to complete.
